## SPRING-SUMMER 2014 EYEWEAR COLLECTION

This season, Bottega Veneta enriches its sophisticated eyewear collection with new sunglasses and optical frames that highlight the brand's unique aesthetic and enduring motifs and feature subtle signatures including the intrecciato motif, photoengraved studs, as well as the block hinge, reinterpreted in new versions. Made from the finest quality materials, these new styles feature the superb craftsmanship, versatility, and timeless elegance that define the Bottega Veneta brand.

### SCULPTED ICON

B.V. 263/S and B.V. 270

An interplay of colored acetate, skillfully combined to create a refined contrast, characterize these women's sunglasses and optical frame. The elegant frames, with their sleek cat-eye silhouette, feature the intrecciato motif through the transparent hues of brown/purple, blue, gray and Havana gray for the sunglasses, and Havana pink, purple/burgundy, brown/purple and gray for the optical frame.

### METAL SIGNATURE

B.V. 259/F/S

Titanium, precious and ultra-lightweight, adds modernity to the alluring minimalist design of these women's sunglasses. Distinctive details include an embellished frame with leather covered temples bearing the laser engraved intrecciato motif. Available in brown/chocolate and silver/black with shaded lenses.

## SHADED COLOR EFFECT

### B.V. 271

These square unisex acetate optical frames feature an embellished front with a soft shaded degradé effect in hues of brown/champagne or black/light grey. The iconic Intrecciato motif is discreetly visible through the transparent nuances.

The Bottega Veneta collection of sunglasses and optical frames is produced and distributed by the Safilo Group.
